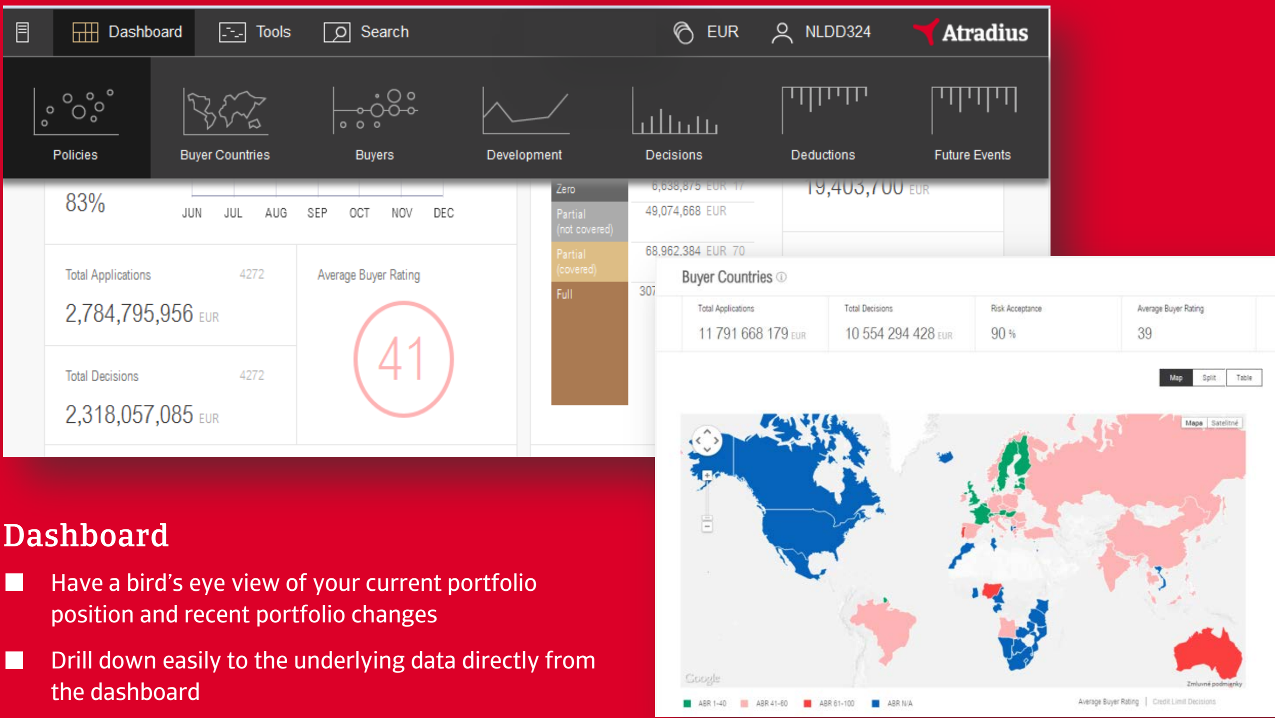
Product features



Dashboard

- Have a bird's eye view of your current portfolio position and recent portfolio changes
- Drill down easily to the underlying data directly from the dashboard

Tools

- **Policies** – provides an overview of policies in size, risk acceptance and weighted average buyer rating
- **Buyer Countries** – shows on a world map the weighted average buyer rating and the total covered exposure per buyer country
- **Buyers** – shows an overview of deteriorated, improved or unchanged buyer ratings within a selected period, as well as an overview on buyer groups and common buyers
- **Development** – provides insight into portfolio trends in credit limit application and decision amounts, average buyer ratings and risk acceptance over time
- **Decisions** – shows all credit limit decisions issued during a selected time distributed across buyer rating bands
- **Deductions** – gives an overview of the different credit limit deductions (withdrawals, reductions, expiries, cancellations)
- **Future events** – provides an overview of those credit limit decisions that will be withdrawn or expire in the next 12 months

Special features

- **Export** your selected data to Excel or copy the graphs to your own reports
- Make use of a **watch list** function to easily monitor specific buyers in your portfolio
- View detailed information about any buyer in your portfolio on an individual **Buyer page**
- Use the **search** function from any screen to easily find a specific buyer and drill-down to the buyer details
- Select the **currency** in which you prefer to display all data in your portfolio
- Create and maintain your own **policy groups** and **buyer country groups**
