## Dear colleagues and partners!

On February 24, our independent free country was subjected to sudden and vile aggression – Russia began a war against Ukraine. Troops invaded from the south, north and east.

Ukrainians are defending their homeland and resisting invaders, but there is a shortage of uniform, weapon and equipment.

Nearly a million refugees have been forced to flee their homes. Women, children and the elderly stand for several days in long queues on the western borders of Ukraine to find safety. The situation is close to a humanitarian catastrophe.

Social infrastructure facilities like medical institutions, nursing homes, orphanages, etc. are suffering from constant shelling and bombing and experiencing a lack of food and medicine.

Ukrainian insurance and reinsurance market represented by the Federation of Insurance Intermediaries of Ukraine, the Insurance Business Association, the League of Insurance Organizations of Ukraine, the Kharkiv Union of Insurers, the National Association of Insurers of Ukraine and the Ukrainian insurance consumers association «Insurance protection» are addressing the global insurance market and asking for support.

You can support army, provide humanitarian assistance and informational support, host Ukrainian refugees and influence local governments in your countries.

### The main options for helping Ukraine:

We would be grateful for any help! We would also appreciate if you contact your insurance and reinsurance partners and connect them to this program.
